InHealth Technologies® Medicare Assignment Program Products

Medicare Insurance Information

The InHealth Technologies® Medicare Assignment Program is available for patients with **Traditional Medicare Part B** as their primary insurance. If you qualify, you can enroll in the program; please allow up to 48 hours for enrollment before placing your order. With Medicare Assignment, **you are typically responsible only for your 20% co-payment** and any remaining deductible. If you have secondary insurance, your out-of-pocket cost may be $0.

Blom-Singer® StomaSoft® Laryngectomy Tubes

Blom-Singer® StomaSoft® Laryngectomy Tubes are flexible, soft, and compatible with InHealth Technologies® HMEs and other accessories from InHealth Technologies®. They feature reinforced strap holders and are available with or without fenestrations.

Blom-Singer® Electrolarynx

An electrolarynx is a speaking aid that produces sound vibrations that can be conducted through the throat and mouth to speak after a laryngectomy.

REF	Description
EL 2000	Electrolarynx

Blom-Singer® SpeakFree® Hands-Free Valves

Blom-Singer® SpeakFree® Hands-Free Valve is the first heat and moisture exchange (HME) cartridge with a single-use fully integrated adjustable hands-free valve. The SpeakFree® HME is translucent and non-reflective for a natural look. The SpeakFree® ClassicFlow® HME is designed for increased moisture retention and airflow resistance. With SpeakFree® EasyFlow®, the foam filter is more porous and allows you to breathe more freely to match your activity level and pulmonary needs.

REF	Description
BE 1090EF	SpeakFree® EasyFlow® HME, pack of 30
BE 1090EZ	SpeakFree® ClassicFlow® HME, pack of 30

Blom-Singer® HMEs (for 24-hour use)

The Blom-Singer® Day&Night® ClassicFlow® can be worn all day and night, including bedtime. The Day&Night® HME is translucent and non-reflective for a natural look. The Day&Night® ClassicFlow® HME is designed for increased moisture retention and airflow resistance. The Day&Night® EasyFlow® foam filter is more porous and allows you to breathe more freely to match your activity level and pulmonary needs.

REF	Description
BE 1091	Day&Night® ClassicFlow® HME, pack of 30
BE 1092	Day&Night® EasyFlow® HME, pack of 30

Blom-Singer® Accufit® Adhesive Housings

The Blom-Singer® Accufit® Adhesive Housing is designed to be our strongest adhesive option while still maintaining flexibility. It has increased elasticity and is less prone to tearing. Available in three shapes: round, oval, and oval extra.

REF	Description
BE 6082	AccuFit® Adhesive Housing, Round, pack of 30
BE 6083	AccuFit® Adhesive Housing, Oval, pack of 30
BE 6084	AccuFit® Adhesive Housing, Oval Extra, pack of 30

Blom-Singer® Hydrofit® Adhesive Housings

The Blom-Singer® Hydrofit® Adhesive Housing is a hydrocolloid adhesive baseplate made with a protective gel-like layer and a moisture absorbent adhesive. The Hydrofit® is gentle on the skin and flexible, but maintains strong adhesion. Available in three shapes: round, oval, and oval extra.

REF	Description
BE 6085	Hydrofit® Adhesive Housing, Round, pack of 30
BE 6086	Hydrofit® Adhesive Housing, Oval, pack of 30
BE 6087	Hydrofit® Adhesive Housing, Oval Extra, pack of 30

Blom-Singer® TruFit™ Adhesive Housings

The Blom-Singer® TruFit™ Adhesive Housing offers a robust baseplate compatible with deeper tracheostomas. Engineered with improved support to facilitate hands-free speech when used with a Blom-Singer® voice prosthesis and the SpeakFree® HME.

REF	Description
BE 6088	TruFit™ Adhesive Housing, Oval Extra, pack of 30

Skin-Prep™ Liquid Film-Forming Protective Barrier Wipes

Skin-Prep™ is a liquid film-forming dressing that, upon application to intact skin, forms a protective film to help reduce friction during removal of tapes and films.

REF	Description
4204-00	Skin-Prep™ Liquid Film-Forming Protective Barrier Wipes, box of 50

Skin Tac™ Adhesive Barrier Wipes

Skin Tac™ liquid adhesive barrier wipes are latex-free, hypo-allergenic, clear, non-rubber adhesive barrier wipes.

REF	Description
MS407W	Skin Tac™ Adhesive Barrier Wipes, box of 50

Remove™ Adhesive Remover

Gently cleans hydrocolloid, acrylic and rubber-based adhesive residues from the skin without irritation, discomfort or trauma.

REF	Description
59403125	Remove™ Adhesive Remover, box of 50

Blom-Singer® Tracheoesophageal Puncture Dilators

The Blom-Singer® Puncture Dilator is available for use by the patient and/or clinician. It is a tapered, solid silicone stent that is inserted into the tracheoesophageal puncture (TEP) upon removal of a voice prosthesis. It is intended to prevent the TEP from closing; prevent leakage of esophageal contents through an open TEP into the trachea during swallowing; and dilate the TEP in preparation for voice prosthesis insertion or replacement.

REF	Description	Rx
BE 6050	18 Fr Puncture Dilator (for 16 Fr prostheses)	■
BE 2050	22 Fr Puncture Dilator (for 20 Fr prostheses)	■

Blom-Singer® Plug Inserts

The Blom-Singer® Plug Insert is designed for temporary management of leakage through a voice prosthesis. Not compatible with patient changeable voice prostheses or Dual Valve prostheses.

REF	Description	Rx
IN 4069	16 Fr Plug Insert (Advantage® and Classic™, 6mm to 20mm)	■
IN 4070	20 Fr Plug Insert (Advantage® and Classic™, 6mm to 20mm)	■

Blom-Singer® Cleaning Brushes

For routine cleaning of a voice prosthesis as recommended by your clinician. Fits indwelling style voice prosthesis only.

REF	Description
IN 4062	Cleaning Brush , 16/20 Fr, Standard, 4mm-10mm, 3 ea
IN 4063	Cleaning Brush, 16/20 Fr, Long, 12mm-20mm, 3 ea
