## SPECIAL ORDER VOICE PROSTHESES (CLINICIAN PLACED)

—DEVELOPED BY ERIC D. BLOM, PH.D

Unique problems call for unique solutions. InHealth Technologies® offers several voice prostheses to address those needs.

### Special Length

Available in one millimeter incremental lengths for a more precise TE puncture fit.

In 1978, Drs. Singer and Blom pioneered the methods of tracheoesophageal puncture and valved silicone voice prostheses that have been the international standard for voice restoration for over 45 years, allowing thousands of patients worldwide to regain their ability to speak. As a leading supplier of advanced voice restoration systems, our goal at InHealth Technologies® is to help laryngectomees regain and preserve a vital part of their lives—their voice. We are proud to continue the Blom-Singer® legacy today with clinical support, input, and leadership.
