

Virtual Laryngectomy Conference

2020

Hosted by InHealth Technologies®

Keeping Me Awake at Night: Challenging Cases in TEP Management *LIVE PANEL*

This multidisciplinary session models the problem-solving process used with laryngectomized patients who speak with a tracheoesophageal prosthesis (TEP). Uncommon and challenging cases from the panelists' clinical archives illustrate the surgical, prosthetic, and behavioral aspects of management that influence development of optimal communication following total laryngectomy. Audience interaction is strongly encouraged.

To register for this live panel:

WHEN

Saturday, November 21st 11:00am – 12:00pm EST

TIME-ORDERED AGENDA

5 minutes: Introduction to learner outcomes & format of the session
25 minutes: Case presentation & discussion
25 minutes: Audience question & answer
5 minutes: Summary & conclusions

LEARNING OBJECTIVES

Identify 3 factors impacting the tracheoesophageal puncture beyond 5-year survival.

Describe 3 approaches to maintaining the tracheoesophageal puncture over time.

Describe options for discontinuing the tracheoesophageal prosthesis.

PRESENTERS

Glenn Bunting, M.S., CCC-SLP

Glenn Bunting, Clinical Director of the Voice and Speech Laboratory at Massachusetts Eye and Ear Infirmary is a master clinician with 35 years experience treating voice and speech problems. His particular interests include the evaluation and treatment of patients with vocal hyperfunction including functional dysphonias, and head and neck cancer.

Financial Disclosures: *Glenn Bunting receives a salary for his work as a speech pathologist at Mass Eye and Ear.*
Non-Financial Disclosures: *Glenn Bunting has no relevant non-financial relationships to disclose.*

Carla DeLassus Gress, ScD, CCC-SLP

Carla DeLassus Gress has provided laryngeal instruction for 30+ years, with a particular interest in advancing SLP education in laryngectomy care. She previously served as the IAL's Voice Institute Director, and has authored several articles on laryngectomy rehabilitation. Gress is currently affiliated with the Head & Neck Oncologic Surgery Service of the Nebraska Methodist Hospital in Omaha.

Financial Disclosures: *Carla Gress receives a salary for her work as a speech pathologist at Nebraska Methodist Hospital.*
Non-Financial Disclosures: *Carla Gress has no relevant non-financial relationships to disclose.*

Ann Kearney, CScD, CCC-SLP, BCS-S

Ann Kearney is a Voice and Swallowing Specialist in the Department of Otolaryngology, Head and Neck Surgery at Stanford University. She has over 30 years of professional experience in academic medical centers. She currently serves as the program coordinator for ASHA CEU courses and works in both Laryngology and Sleep Medicine departments. She has ASHA specialty certification in swallowing disorders.

Financial Disclosures: *Ann Kearney receives a salary for her work as a speech pathologist at Stanford University.*
Non-Financial Disclosures: *Ann Kearney has no relevant non-financial relationships to disclose.*

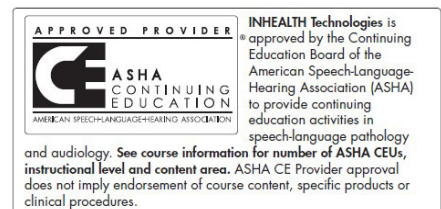

With added guest speaker, Daniel Deschler, MD, FACS

MODERATED BY

Elizabeth Lucarelli, M.S., CCC-SLP
Clinical Specialist, InHealth Technologies

Financial Disclosures: *Ms. Lucarelli is an employee of InHealth Technologies.*
Non-Financial Disclosures: *Ms. Lucarelli has no relevant non-financial relationships to disclose.*

If you have questions, concerns, or requests for accommodations, please email education@inhealth.com

This course is offered for 0.1 ASHA CEUs (Professional Area-Intermediate Level)
